

"Sweet Maple Mania" It's a sweet deal!

Add some sweetness to your life with our **Sweet Maple Mania** package at The Mountain Top Inn & Resort in Chittenden, Vermont. Where better to celebrate an annual sign of spring, like homemade maple syrup, than the majestic mountains of central Vermont.

The production of maple syrup, known as "sugaring", takes place just as winter is losing its grip. The maple producers, or "sugar makers" look for weather that alternates between freezing and thawing; this is what makes the sap flow. In Vermont, sugaring weather usually starts around the beginning of March, and normally lasts for about six weeks.

This sweet two night package tempts your sense of taste and of smell with Vermont maple products! You will be just a short drive from the [New England Maple Museum](#), [Baird Farm](#), [Sugar & Spice](#) and many more maple farms & sugarhouses.
